Ref: Mediterra (All grounds for 2 Visits)/ Nightly Cane Toad Visits

#### **Dates Completed:**

October 28<sup>th</sup> into October 29<sup>th</sup> October 29<sup>th</sup> into October 30<sup>th</sup>

<u>Summary of Visit</u>: On the first night, October 28th, the crew arrived on site and completed a thorough inspection of the property. They worked on, and completed, the East side of Mediterra first and then moved to the West side and focused on the HOA sections. There was an estimated count of 100-110 Cane toads removed during this nightly visit.

On the second night, October 29th, the crew arrived on site and completed a thorough inspection of the property. They worked on the West side of Mediterra throughout the Golf Course and lakes, and touched on the hot spot areas at the end of the night. There was an estimated count of 140-150 Cane toads removed on this nightly visit.

Altogether, there was an estimated count of 250 Cane toads removed for the month of October. There was higher Cane toad activity found throughout the course. No Cane toad tadpoles were found in the lakes during these visits.

**Observations:** The Crew continues to notice a nice population of Southern Toads on property. These toads are very beneficial to have on property and are not toxic like the Cane toads. They look similar, so we've added pictures to the report to help identify the species. It is positive to see the Southern Toad population grow after removing so many Cane toads.

As the weather is cooling down, and we move closer to Florida's 'winter', the Cane toads will go dormant. We recommend to continue monthly visits as the weather warms up in the spring.

Total estimated number of adult Cane toads removed throughout the whole property since May is approximately 3720 Cane toads along with many juveniles and many tadpoles.

Date:	November 18, 2020
Subject:	Status Report – Field Operations

<u>Solitude Lake Management</u>: The lake and wetland contract are set to expire January 31, 2021. The current contract is \$195K. Staff has reached out to Solitude and asked if they will keep the contact at same cost, should the Board consider not going out to sealed bidding. Currently awaiting a response and will share with the Board at the meeting.

**<u>RCS</u>**: The aeration located in RCS lakes 7 and 73 are not in service. Staff spoke with Vince Barraco with RCS on October 30<sup>th</sup> and he has indicated that he has authorized Solitude to make appropriate repairs.

<u>Littoral Plantings</u>: The following lakes were identified during the lake audit – 12, 18, 19, 27/28, 29 and 40. Total cost to install \$6,325.00 – This project was completed the week of November 2<sup>nd</sup>. Total of 9500 plants consisting of Yellow Canna, Pickerelweed and Duck Potato (looks like Arrowhead).

<u>Lake 25 & 26 Padova Sinkhole Line Repair</u>: As approved at the August meeting, and is built into the 20/21 budget (Capital Outlay). This project will be scheduled during the month of January. Cost to install a CIPP UV Line is \$78K.

#### **Bank Remediation Projects:**

<u>Lake 35 Rip/Rap Project</u>: Located on the golf course side of the lake an area of approximately 150 linear feet of erosion has occurred. Rip/Rap installation to the headwall located in the cove of this lake will be completed in conjunction with the Line Repair project during the month of January. Cost - \$38K.

<u>Lake 13:</u> As discussed at last month's meeting, Staff met with Tom Lively, Golf Course Superintendent on September 3<sup>rd</sup> to review a concern of bank erosion, located on North 18<sup>th</sup> adjacent to the green. Cost to restore - \$11,875.00 which includes 385 linear feet of shoreline. This project has not yet been scheduled as Anchor Marine is waiting for Tom Lively to advise when this project can be completed.

<u>Financial Impact</u>: Line item of this budget is \$100K which includes Aqua-scaping, lake bank restoration and pipe inspections/clean-out. Total cost for these projects \$49,875.00 plus the littoral planting of \$6,325.00 leaves a balance of \$43,800.00 for the annual pipe cleanout project.

#### MEDITERRA COMMUNITY DEVELOPMENT DISTRICT 9220 Bonita Beach Road, Suite #214, Bonita Springs, FL 34135

<u>Calabria Project:</u> Our Engineer Brent Burford reviewed the project on Tuesday, October 13<sup>th</sup> to inspect the staking of the preserve, previously made by the HOA. There are pvc pipes that are set over the wooden survey stakes. The metal pins are adjacent to the pvc pipes. Brent measured from the centerline of pavement to the staked preserve at three different locations, and compared them to the measurements off of their GIS map. The difference was less than 5 feet at all three locations. Based on this information it has been confirmed that the staking is in the proper locations.

Staff has provided Mr. Clerico, President of Calabria with two proposals (EarthBalance \$6,750.00 & Cintron Landscape \$4,400.00) a third proposal is expected to be received on November 10<sup>th</sup> and will be provided to Mr. Clerico for his consideration. This exercise is to trim back the vegetation of the conservation. If the HOA wishes to proceed, our Legal Council will be providing a letter agreement between the District and the HOA as requested by the Board.
